#### 1. Aims

Schools are required under the Equality Act 2010 to have an accessibility plan. The purpose of the plan is to:

- > Increase the extent to which disabled students can participate in the curriculum.
- > Improve the physical environment of the school to enable disabled students to take better advantage of education, benefits, facilities and services provided.
- Improve the availability of accessible information to disabled students.

Our school aims to treat all its students fairly and with respect. This involves providing access and opportunities for all students without discrimination of any kind. All students access a broad and balanced curriculum dependent on their needs.

Reasonable adjustments are made for those with a disability by taking action to increase access to the curriculum, the environment and to printed information for all.

Ensure that children and young people with SEND engage in the activities of the school alongside students who do not have SEND.

Use our best endeavours to secure Special Educational Needs and Disability provision for students for whom this is required, that is "additional to and different from" that provided within the differentiated curriculum.

Request, monitor and respond to parent/carers' and students' views in order to evidence high levels of confidence and partnership.

Support students with medical conditions to achieve full inclusion in all school activities by ensuring consultation with health and social care professionals in order to meet the medical needs of students.

Work in partnership with the Local Authority and other outside agencies, to ensure there is a multi-professional approach to meeting the needs of all vulnerable learners.

The plan will be made available online on the school website, and paper copies are available upon request.

Our school is also committed to ensuring staff are trained in equality issues with reference to the Equality Act 2010, including understanding disability issues. The school supports any available partnerships to develop and implement the plan.

Our school's complaints procedure covers the accessibility plan. If you have any concerns relating to accessibility in school, the complaints procedure sets out the process for raising these concerns.

We have included a range of stakeholders in the development of this accessibility plan, including: students, parents, staff and governors of the school.

## 2. Legislation and guidance

This document meets the requirements of <u>schedule 10 of the Equality Act 2010</u> and the Department for Education (DfE) <u>guidance for schools on the Equality Act 2010</u>.

The Equality Act 2010 defines an individual as disabled if they have a physical or mental impairment that has a 'substantial' and 'long-term' adverse effect on their ability to undertake normal day to day activities.

Under the <u>Special Educational Needs and Disability (SEND) Code of Practice</u>, 'long-term' is defined as 'a year or more' and 'substantial' is defined as 'more than minor or trivial'. The definition includes sensory impairments such as those affecting sight or hearing, and long-term health conditions such as asthma, diabetes, epilepsy and cancer.

Schools are required to make 'reasonable adjustments' for students with disabilities under the Equality Act 2010, to alleviate any substantial disadvantage that a disabled student faces in comparison with non-disabled student. This can include, for example, the provision of an auxiliary aid or adjustments to premises.

### 3. Action plan

This action plan sets out the aims of our accessibility plan in accordance with the Equality Act 2010.
